## EDUCATION

---

### Suleyman Demirel University Almaty

*B.S. in Information Systems*

2019-2023

Relevant Coursework:

- Web programming: front end, back end, Introduction to Algorithms, Advanced Algorithms, Database Management Systems 1-2, Computer networks, The Go programming language, Graphic Design, UI/UX design.
- Mathematics for Computer Science 1-2, Probability and Mathematical Statistics, Discrete Mathematics

## PROJECTS

---

### Course rating - *Web App /next.js*

- Designed and implemented Single Page Application using Server Side Rendering with next.js
- Fetched data of various courses, it's ratings and feedbacks through networking API
- Worked with animations, components(stateful and hoc components), hooks(useEffect, useContext, useState, useReducer), forms

### Posts-list - *Web App /React*

- fetched data through jsonplaceholder api
- functionality: adding a post using a pop-up form with animation; deleting post with animation; searching, sorting, filter that shows certain number of posts per page; page routing, pagination, infinite scroll, pseudo-auth

### Airline database - *Database, Web App /SQL, php*

- Created conceptual, logical, normalized database of fictional airline from scratch with 14 tables and 50+ attributes
- Created simple UI with admin authentication and crud realization using js/php/css/html
- Created ERD of the database

### JSMarathon- *Web Apps /JS*

- Created 6 mini-projects/features which include card-carousel, draggable to-do-list(trello-alike), another animated carousel using js, a board containing small squares that are highlighted when you hover the mouse, aim-game and drum kit

### JWT-auth-registration - *Web App /Golang*

- Implemented service based on RESTful protocol
- Implemented authentication using JWT
- Resources for authorization, registration (with mailbox confirmation using SendGrid mail API) and password change.
- Used PostgreSQL database

**Other project you can find in my github...**

## TECHNICAL SKILLS

---

### Programming Languages/Frameworks

- HTML/CSS
- Javascript
- Fundamentals of React
- Fundamentals of Go
- Basic Typescript

### Skills

- Git
- Adobe Photoshop, Figma
- SQL
- Touch-typing
